REVIEW OF MARKETS

FINANCIAL AND COMMBRCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Oct. 17 .- There was short lived demonstration by the bulls in the stock market to-day, but before trading was suspended the early gains were largely curtailed and in some cases more than wiped out. The strength was attributed to various causes. The reappearance this week upon the floor of the exchange of several operators who took a large part in last spring's big buil market and who have been away on long summer vacations, gave something of a fillip to buillish sentiment. The quiet tone of the money market yesterday in the face of operations incident to the change of old Central Pacific securities for new encouraged some sentiment for a rise.

There were one or two stocks in the gains were largely curtailed and in

n rise.

There were one or two stocks in the list which were notably strong from individual causes, which was rumored but not authoritatively disclosed, and which helped to sustain prices. Among these were Pullman and Great North-

but not authoritatively disclosed, and but, not authoritatively disclosed, and which helped to sustain prices. Among these were Pullman and Great Northern preferred, although the latter more than lost the early gain. The Balliumere and Ohlo stocks were conspicuously atrong, the common rising an extrement of the common rising an extrement of the common rising an extrement of the continued its advance and reached as his many than the preferred 2. Leclede Gas continued its advance and reached as his many than the preferred 2. Leclede Gas continued its advance and reached as his many than the grant of the Grangers, Louisville and Southern Pacific were quite well taken early in the day, apparently by pool interests. The public was not in evidence at any time during the day.

Call money continued at 6 per centor below in spite of the fact that many banks report their cash still below the logal reserve, But while the money rate stocks, sepecially those classed as "green" in Wall street parlance, showed signs of weakness, as might happen it they were subjected to discrimination by money lenders in the shifting of loans. The Glucose stocks were notably affected, the common dropping nearly eight points and closing near the lowered simultaneously. Steel also were dealing with an extreme decline of 234. Others of the group suffered to the extent of between 1 and 2 points. This unsettled the bull movement and wiped out pretty much all the gains which had been established. Prices struggled upward again in the final dealings to a least for the most part slightly above a large of the group suffered to the extent of the most part slightly above a large of the group suffered to the extent of the most part slightly above a large of the group suffered to the extent of the group suffe

In bid quotations.
